### INSTRUCTIONS

This assignment will take approximately 1 hour to complete.

First, review Rule 10.4 *Goals and Assists* and the related situations. Second, answer the questions quickly without referring to the Referee's Case Book. If you are unsure of an answer, write down your best guess. Lastly, after you have completed all the questions review the references provided and check your answers. Amend your answers as required. You will receive the official answer key 2 days from today. Please do not look at it until you have completed the exercise indicated above.

Write/type your answer in the space provided below each of the following questions. Always include relevant "fill-in" information (i.e., location of the ensuing face-off) in your answer.
